

## **Addition Manufacturing Technologies Expands Sales and Marketing Team in Europe**

**Colomiers, France, February 6<sup>th</sup>, 2018- World-leading tube bending and end forming technology specialist Addition Manufacturing Technologies increases its strength by adding new sales and marketing employees.**

Addition Manufacturing Technologies currently employs approximately 250 associates globally and has recently hired additional resources to increase sales coverage and marketing support for its European market.

Shaun Eaves has joined the Preston, United Kingdom, branch as Sales Engineer. He is a time-served Toolmaker with City and Guilds and EITB qualifications in Mechanical Engineering. He has 27 years of experience working in the tube industry. He previously worked for Addition's heritage brand company, AddisonMckee, as Regional Sales Manager, and wanted to rejoin Addition after working in Tekbend as UK Sales Manager and at Industrial and Tractor as Tube bending Manager. Shaun is looking forward to working with everyone in the company and contributing to its success.

Justine Rigal has joined the Colomiers, France, branch as a Marketing Apprentice. She is working towards a Bachelor degree in Marketing, and will assist with promoting the brand and its products in Europe. Justine comes to Addition with experience as a communication assistant in several areas including charity and hospitality. Justine is looking forward to gaining valuable knowledge in the manufacturing sector and to applying what she is learning to real world experience.

Addition is eager to see their positive contributions and we enthusiastically welcome them to our company.

Addition Manufacturing Technologies is a global manufacturing technologies company specializing in machines and tooling for tube bending, end forming, measuring and silencer making. Among others, the company's products serve the automotive, aerospace, HVAC, and energy market segments.
